Education

Master of Computer Software Engineering

Mashhad, Razavi Khorasan, Iran

October 2019 - October 2023

Work Experience

Back End Developer

Respina24

Mashhad, Razavi Khorasan, Iran

September 2021 - September 2021

Tasks and Achievements

At Respina24, I honed back-end skills as Back End Developer, mastering PHP and CodeIgniter for admin panel development. Used Bootstrap 5 and JQuery, starting from an internship.

Full Stack Developer

Bontech (Asanak)

Tehran, Iran

November 2022 - Present

Tasks and Achievements

- Collaboration in the pilot phase for three months, focusing on basic tasks in the backend layer and analyzing the structure of the mass messaging project.
- Development and optimization of the backend layer of the project using the Hyperf framework and the Swoole engine to achieve high performance and concurrent processing.
- Design and implementation of a queue system using RabbitMQ and optimization of server resource consumption using Asynchronous Task Handling patterns.
- Improving the security of services by implementing secure authentication, access level management and protection policies based on OWASP.
- Redesign and modernization of the admin dashboard user interface using React.js and direct interaction with backend APIs.
- Current activity as a full-stack developer in the final phase of the project, focusing on UI/UX integration and performance.

Skills

PHP

Laravel

Hyper swoole

MySQL

Redis
